

## Subject Line: Optimast® Frangible Sign Support Structure

Signfix® and Optimast® product ranges are MASH compliant and approved by Austroads Safety Barrier Assessment Panel (ASBAP) for use on Australia and New Zealand road networks.

Structurally designed to support large directional signs of up to 40m<sup>2</sup>, the extruded aluminium mast (5-8m lengths), shear bolts and base plate are delivered fully assembled.

Manufactured with corrosion resistant high-quality marine grade aluminium alloy, [Optimast®](#) is simple to install and can be easily replaced by removing damaged poles and reinstalling onto existing foundations.

Safe, reliable and simple to install, [Optimast®](#) offers the following benefits:

- MASH Certified
- Passively safe
- Engineered to last
- Reliable
- Economical
- Easy to install
- Quick & easy to specify
- Tested & compliant to MASH TL3
- Complies with AS/NZ3845.1 & AS/NZS3845.2
- Patent protected
- Australian Made

Download the full specifications and State Approval Documents [here](#).

If you have any questions or wish to discuss how Signfix can be used in your next project, please give me a call or send an email and I'll be happy to help.
